

## **BULLETIN INFORMATION UPDATE**

The JCC Communications Group are continuing to look at how information is printed in the Parish and are to give an interim presentation to the PCC on Thursday 26th May. It has already become clear that using an E mail link to the weekly bulletin is an innovative step forward. There are huge possibilities to keep those who may not be able to come to church every week in touch with the latest news, and it helps to reduce our costs and carbon footprint. Ways to make this a quick and simple process are well advanced.

Printing the bulletin in colour however is proving to be unnecessary at this time, so with effect from Sunday 5th June it will revert to black and white. The bulletin can still be viewed in colour on the website at [www.stfaithshitchin.org.uk](http://www.stfaithshitchin.org.uk) and through the E mail link if you sign up to it. There are forms at the back of the church to enable you to do this. On the website you will find lots of information and you can also can print the bulletin in colour if you want a hard copy plus you get it on the Friday before the Sunday church service.

Just to reassure anyone who may not have the Internet, Copies of the bulletin will always be available each week at church, just as they are now.
